Summary

SDET with 3+ years of experience specializing in developing scalable **web and API automation** frameworks. Proficient in **Java, Selenium, TestNG Rest Assured, and Cucumber**, with a strong focus on improving software quality, accelerating release cycles, and enhancing test coverage. Adept at working in **agile environments**, collaborating with cross-functional teams, and implementing continuous integration practices.

Experience

SOFTWARE DEVELOPMENT ENGINEER IN TEST (SDET), INFOSYS

(August 2022 – PRESENT)

- Designed and maintained an API automation framework using **Java, Rest Assured, Cucumber, and Gherkin**, achieving a 60% increase in test coverage.
- Developed and executed **500+ automated API test cases**, ensuring comprehensive regression coverage.
- Collaborated with developers and product owners to identify, log, and resolve over **100+ defects**, enhancing overall software stability and product reliability.
- Implemented **Cursor AI** integrated with MCP server, increasing test case creation speed by 40%, automation efficiency by 35%, and reducing manual testing time by 30%

Education

.Bachelor's degree

B.Tech in Electronics and Communication Engineering (ECE)

JAYPEE INSTITUTE OF INFORMATION TECHNOLOGY, NOIDA

06/2018 – 6/2022

Skills & Abilities

- **Programming Language:** Java, Python ,c#
- **Automation & Test Tools:** Selenium WebDriver, Rest Assured, Postman
- **Frameworks:** Cucumber, Gherkin
- **Databases:** SQL
- **Domain Knowledge:** UI Automation, API Automation, SDLC, STLC, Test Planning, QA Methodologies , GenAI , LLM
- **Other Tools:** Jenkins, Git, JSON, XPath, Jira
